INTERSHIPS

TCS

06 Mar, 2023 - Present

Configuration of Product Web Pages

Key Skills: HTML CSS Javascript Bootstrap CSS Flexbox

PROJECTS

E-Commerce Website

20 Apr, 2023 - 30 Apr, 2023

Mentor: Dinesh Kumar | Team Size: 1

Key Skills: HTML5 CSS CSS Flexbox Javascript Bootstrap

Project Link: <https://pdinesh711.github.io/E-com/>

An e-commerce website is an online platform where businesses can sell their products or services to customers over the internet. It allows customers to browse through products, add items to their cart, and complete the purchase process entirely online.

Design and Implement Of an Application For E-learning Platform With Use of Java Swing And Awt

24 Dec, 2022 - 01 Apr, 2023

Team Size: 2

Key Skills: Java Java Swing AWT Swing HTML5

Project Link: https://github.com/PDinesh711/E-learning_platform

The goal of this project is to teach students about e-learning platforms and how they can be used to enhance their education. E-learning platforms are digital platforms that offer educational resources, courses, and other learning opportunities online. This project aims to introduce students to the benefits of e-learning, such as the ability to learn at their own pace, access to high-quality resources, and the opportunity to connect with a global community of learners.

Portfolio

25 Jan, 2023 - 30 Jan, 2023

Key Skills: HTML5 CSS CSS Flexbox

Project Link: <https://pdinesh711.github.io/Portfolio/>

- To create a personal website that showcases your skills, achievements, and personality.
- To provide a platform for you to share your thoughts, experiences, and ideas with others through a blog.
- To use modern web development technologies and best practices.

Design and Implement of an Application For TV Management System With Use Of Java GUI

21 Jul, 2022 - 21 Dec, 2022

Team Size: 2

Key Skills: Java AWT Swing Java Swing

A subscriber registers for the first time by providing his personal information
When registering for a new subscription, the company charges an installation fee which is collected once. It depends on the number of TVs to be installed at the subscriber's site.

Link - https://github.com/PDinesh711/TV_Plan_Subscription

A subscription must provide information: the subscriber, the date, the subscription cycle (start date - end date) and the services from which the subscriber benefits
A TV channel is characterized by information on its name, origin, language, etc.
he television channels are classified by categories (packages). For example: sports, movies, kids, ...
A subscriber can change the requested services at each cycle.
A subscriber can subscribe to packages or individual channels
Each bundle/package has a price
The subscriber must pay the fees for the next cycle in advance

MI Store Application

12 Apr, 2023

Team Size: 1

Key Skills: HTML CSS CSS Flexbox Javascript Bootstrap

Project Link: <https://github.com/PDinesh711>

Mi e-commerce website project would involve developing a web platform where users can purchase and manage products online.

The goal of the project would be to provide an online platform for users to conveniently purchase Mi products from anywhere in the world. The website would need to have an intuitive user interface, making it easy for users to browse through the various product categories, view product descriptions and images, and add products to their cart . Then buy the Product After Adding in My Cart

ACHIEVEMENTS

- o Achieved Gold Badge in Java And CSS in Hackerrank
- o Completed Java (Basic) and CSS Verified Certification in Hackerrank

ASSESSMENTS / CERTIFICATIONS

Web development

Key Skills: Bootstrap Javascript CSS Flexbox CSS HTML5
